Info Plus Accounting, PC Celebrates 10th Anniversary

Info Plus Accounting, PC, a CPA firm, is pleased to announce that they are now in their 10th year of business.

Established in 1994, 60-70% of this Ann Arbor-based accounting firm's clients are home builders, developers, and remodelers. Due to extensive certifications and experience working with these industries, Info Plus Accounting, PC has developed a national client base, generated repeated requests for speaking engagements at national and international builders shows, and has developed several QuickBooks[®] related products specifically designed for the construction industry. Info Plus Accounting, PC also serves technology, service, retail, and other industries with complex accounting needs.

"Small and mid-sized companies need the same critical decision-making information and financial control as large companies," says President, Diane C.O. Gilson, CPA. "We help business owners '*harness the power of numbers*' by assisting in establishing economical in-house accounting and control systems. We offer a unique, four-discipline approach: industry expertise, accounting depth, more than ten years of intensive QuickBooks experience, and friendly, personalized on-site or Internet training."

Info Plus Accounting PC works exclusively in QuickBooks[®] (a powerful, multi-functional software accounting system). They focus on helping clients achieve their business and financial goals by maximizing the value of an essential management tool, their accounting system. This is accomplished by providing accounting, reporting, consulting, design, and training services through on-site visits or via the Internet.
